Grapes Hill Community Garden is a grass-roots community garden project, only a short walk from Norwich City centre. The small garden (50 metre by 12metre) is looked after by the volunteer-led Grapes Hill Community Garden Group (GHCGG). The group was set up over 14 years ago by local residents to turn a patch of unloved, Council-owned, tarmacked land to a colourful and bountiful community-owned garden with the aim of supporting local resident's health and wellbeing.

Past events include Celebrations of International Culture, Celebrations of nature, art and music.

Regular Volunteer gardening sessions usually Wednesdays and Sundays.

Also regular events, check our event calendar on our website..
