Friends of Jubilee Park help look after and improve Jubilee Park with and for the community.

Their main activities are,

Food growing in the park; we've installed raised beds and created spaces for growing behind the community centre. Everyone is welcome to help care for the produce and share the fruits and vegetables.

Bulb planting with Lakenham school, creating a wildflower meadow and buying a new bench for the park.

Organising events such as a picnic and Christmas fair to fund raise for the park.

We arranged for installation of football goals and basketball hoops in the park and organised summer football and basketball sessions for primary school children.
