

# The Green Hearts of Mile Cross

Please get in touch with us at [mxgreenhearts@gmail.com](mailto:mxgreenhearts@gmail.com)  
Or you can contact Lee Cozens on 07767057302 for more details.

We are a collective of people who live and work in Mile Cross. Our aim is to transform unloved green spaces for people and nature. We also aim to grow fresh and nutritious food for the community to share, in harmony with the natural world.

We are an ambitious group who are always willing to try new ideas and think big. We learn together and share our skills. This year we will be continuing with seasonal community events, seed swaps, installing more ponds, completing a wonderful new community garden with disabled access, and generally learning more about food growing and cooking.

Every Wednesday there is a friendly and active session at Burges Rd Community Garden, where people meet, learn new skills and get stuck into a variety of tasks from construction to food growing. Everyone is welcome to join. We also do regular practical sessions around the Green Hearts project areas on Tuesdays between 12 and 2pm
