

## A little about Norwich Fringe Project

Since 1991, local authorities in the county have been funding Norwich Fringe Project to care for over 50 sites within and around the Greater Norwich area. Working alongside volunteers, local communities and parish councils to care for habitats, improve biodiversity and provide access for everyone to enjoy.

Norwich City Council is the lead funding partner of Norwich Fringe Project, with Broadland District Council and South Norfolk Councils as supporting partners.

Managing our natural heritage & green spaces

**Would you like to learn new skills and help to manage natural heritage and green spaces?** Then get involved as a Norwich Fringe Project volunteer!

Our team of volunteers are the driving force that helps us achieve our aims and goals, helping to protect and enhance natural spaces all over Norwich. We have regular, dedicated volunteers who turn out in all weathers and seasons to help maintain sites for wildlife and for everyone in the city to enjoy.

## What is involved?

### Habitat management

Coppicing, tree planting, meadow cuts, hedge laying and other habitat management work.

### Construction

Installing cattle fencing, paths, steps, bridges, gates and stiles.

### Site care

Mowing and brush cutting paths, lopping back and litter picking.

## Why volunteer?

- Help improve natural spaces in your community
- Keep fit and look after your wellbeing
- Make friends and discover new places
- Share and learn new skills
- Celebrate the year's hard work with our Volunteer Christmas Meal!

Please be aware that the nature of this work is physically demanding and we will work in all weathers. Volunteers should be able to work safely in these conditions.

## Volunteering sessions

If you would like to get involved, you can join one of our taster sessions for new volunteers. Contact us here for information and to book: [NorwichFringeProject.wordpress.com/contact-us](https://www.norwichfringeproject.com/contact-us)

New volunteers are always welcome. Don't worry if this type of activity is new to you – the more experienced volunteers will share their knowledge and expertise with you!
